He is working on changing the transportation culture in Winston-Salem. To do that, he focuses on the 5 E's: Engineering, Education, Encouragement, Evaluation, Enforcement.</p> <p>Engineering -The focus here is on things like bike lanes, trails, intersection improvements, etc. They are working on a new bicycle master plan to be completed by the end of the year. They will look at where we need infrastructure and then prioritize those items. They will be soliciting citizen input. 2/21 5:30-7:30 The first public meeting will be held on Wednesday, February 21 from 5:30-7:30 at the central library. People can also complete surveys online at the city website. There are plans to extend the Muddy Creek Greenway north and south. The Greenway currently connects three schools. There are also plans for trails that would connect NCBH to downtown. With changes in bus routes more people are having to walk to bus stops along main roads. The city built 6 miles of sidewalks last year alone.</p> <p>Education - They are using public service announcements, Facebook, and the city website. There is a Safe Routes to School program. Matt's department has a program that trains PE teachers to teach their students bicycle safety.</p> <p>Encouragement - The National Cycling Center here in Winston-Salem is an Olympic training center. They have been partnering with the city since 2010 to sponsor events such as Walk n</p>

There are docking stations downtown and at Salem Lake. To use the bikes you download the Zegster app. You pay for a bike on the app and bluetooth unlocks the bike. 1/3 of the bikes are used at Salem Lake. Most use is recreational. There is a \$30 annual membership. Zegster has someone who rebalances the bikes so that you can pick up a bike one place and leave it at another. One phone one bike. \$3/hour This program is sponsored through the National Cycling Center.</p> <p>Evaluations - There is an ongoing evaluation of where crashes are happening. There are ongoing pedestrian and bicycle counts. The data is used to quantify pedestrians and cyclists to justify new projects.</p> <p>Enforcement - Especially in the downtown area, the city police are issuing more citations to drivers who disregard pedestrian walkways.</p> <p>The Peters Creek Parkway bridge under is under construction. They will begin working on the 4th Street bridge this spring. They will be adding pedestrian lanes in the Peters Creek Parkway & Academy Street area.
